Our school initiatives are showing substantial progress toward our targets

After reviewing our 2016 *Investing for Success* agreement, it is clear that we have made progress toward our targeted student outcomes. We will continue to focus on maximising the benefits of this funding for our students, and adjust our initiatives as needed to ensure every student succeeds.

Initiatives implemented include:

- Provision of professional development and coaching to ensure teachers have the necessary skills to embed Explicit Teaching in their classrooms.
- Provision of professional development to ensure teachers are able to deconstruct Australian Curriculum in the areas of Science, Mathematics, and English.
- Provision of focused and intensive teaching for students requiring additional support to demonstrate achievement against their year level achievement standards and/or chosen pathways.
- Provision of resources, human, financial and physical, to assist in the attainment of identified targets.
